Quadriga Investors - AZ Total Return Fund

a subfund of Quadriga Investors (the Company)
(ISIN: LU0725183734, share class: A - EUR)
Management company: Quadriga Asset Managers SGIIC, S.A. Management Company (Spain)

Objectives and Investment Policy

Objectives

The fund seeks to achieve long term capital growth by investing in listed equities, fixed income securities and the most liquid listed futures through long/short strategies.

Investment policy

To this end, the fund will invest in listed equities, fixed income securities denominated in major world currencies and in the most liquid listed futures through long/short strategies.

The fund will also invest up to 10% of its assets in FX pair of currencies.

The fund will mainly invest in Europe and North America.

The range of fixed income securities the fund invests in includes securities issued or guaranteed by Member States and Non-Member States, their sub-divisions, agencies or instrumentalities, corporate debt securities and corporate commercial paper, event-linked bonds issued by both governments and corporations and freely transferable and unleveraged hybrid securities which are transferable securities that combine a traditional stock or bond with an option or forward contract.

The fund may use financial derivative instruments, either listed or OTC, such as, but not limited to, contracts for differences, swaps, options, forwards and futures. The fund will invest in most liquid futures and in the most liquid forex crosses to trade them directionally. The fund is actively managed.

Other information

This fund will not distribute dividends. Any income generated will be reinvested in the fund.

Investment in this fund is suitable for investors seeking a stable income with moderate level of volatility.

You can buy and sell shares on most working days in Luxembourg. Exceptions to this are more fully described in the fund Holiday Calendar available from the Administrator.

Risk and reward profile

The above indicator shows the risk and reward characteristics of the fund, based on the fund's historical performance over the last 5 years. Where a 5-year performance history is not available, the history has been simulated on the basis of an appropriate benchmark index.

The indicator above is based on historical data and thus may not be a reliable indication for the future.

The indicated risk category is not guaranteed and may change over time.

The indicator helps investors have a better understanding of the potential gains and losses of the fund. Even the lowest category does not mean a risk-free investment.

Important risks to which the fund is particularly sensitive

The fund's performance is determined by trends in financial markets and by economic developments of the issuers, who are themselves affected by both the overall situation of the global economy and by the economic and political conditions prevailing in each country.

There may be times where the issuer or guarantor of a fixed income security or derivative cannot meet its payment obligations. The credit rating and risks associated with the securities can change over time and therefore affect the performance of the fund.

The fund is subject to interest rate risks in the currencies of the fund assets.
