The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Quadriga Investors - Belgravia Lynx

a subfund of Quadriga Investors (the Company)
(ISIN: LU0691314768, share class: A - EUR)

Management company: Quadriga Asset Managers SGIIC, S.A. Management Company (Spain)

Objectives and Investment Policy

Objectives

The fund seeks to achieve a superior performance by investing in companies deemed by the fund to be undervalued.

Investment policy

To this end, the fund will primarily invest in company shares and complex instrument (financial derivative instruments including "futures", "options", "swaps", "forward contracts").

The remainder of the fund investments will be composed of money market instruments and fixed income securities, mostly issued or guaranteed by EU member states.

The primary countries in which the fund invests include any EU member state, Switzerland, the Scandinavian countries and the United states.

The fund is actively managed without following any particular market or index. Overall, the fund is constructed to maintain potential monthly losses below a level of 20%, with a confidence level of 99%. In other words, there is a 1% chance that the month-to-month loss of the net asset value may exceed 20%.

The primary issuers which the fund may be exposed to include issuers located all OECD members (mainly Europe). The fund may also be exposed up to 10% of its net assets in issuers located in emerging countries.

Other information

This fund will not distribute dividends. Any income generated will be reinvested in the fund.

Investment in this fund is suitable for investors seeking stable income with moderate level of risk.

You can buy and sell shares on most working days in Luxembourg.

Exceptions to this are more fully described in the fund Holiday Calendar available from the Administrator.

Risk and reward profile

The above indicator shows the risk and reward characteristics of the fund, based on the fund's historical performance over the last 5 years. Where a 5-year performance history is not available, the history has been simulated on the basis of an appropriate benchmark index.

The indicator above is based on historical data and thus may not be a reliable indication for the future.

The indicated risk category is not guaranteed and may change over time.

The indicator helps investors have a better understanding of the potential gains and losses of the fund. Even the lowest category does not mean a risk-free investment.

Important risks to which the fund is particularly sensitive

The fund's performance is determined by trends in financial markets and by economic developments of the issuers, who are themselves affected by both the overall situation of the global economy and by the economic and political conditions prevailing in each country.

The fund performance is influenced by the accuracy of the model used to assess and select investments.
